

## Tires

# Sticking Like Glue

We already documented the advantages of the Geax Saguardo tubular tires for 26-inch wheeled bikes ("Tubular Tires For Mountain Bikes?" *MBA* March 2009). Geax didn't want to leave the 29er crowd out of all the fun and introduced a 29-inch version of the tire we tested. The tire will sell for \$120 at a bike shop near you. Can't find one? Call (800) 223-3207.
